REMARKS

25X1

25X1 1. On 4 October 1951, Seyring (P 49/S 40) was occupied by 42 Pe-2s. Two Pe-2s made 15 to 20-minute flights during sunny weather. About 40 tents, 2 trucks, 2 tank trucks and two van-like trucks.

25X1 were observed at the field.

25X1 2. On 14 October 1951, Seyring airfield was being evacuated.

25X1

25X1 No aircraft were stationed at the field and only a wrecked Pe-2 was seen. Only a few officers and EM were observed at the installation. *

25X1

25X1 * Comment. Paragraph 2 of the present report indicates that the bomber units previously observed in Seyring had been transferred there only temporarily, probably for training purposes. It is not known to what field these bomber units have moved. The reported reinforcement of the Pe-2 formations in Strasshof (P 49/S 50) seems to indicate that elements of these units had temporarily moved to Seyring.
